RULES AND REGULATIONS (continued)**15. BILLING AND BILLS PAYABLE**

Meters will be read and bills for service will be rendered monthly except as otherwise provided. Bills are payable at the office of the Company during the regular hours of business. The due date for residential customers will be 20 days from the postmarked date of billing. The due date for all other customers will be 15 days from the postmarked date of billing. If paid on or before the due date, the net amount shall apply, otherwise the net amount plus a late payment charge will be due and payable. An account is considered delinquent when the charges have not been paid in full by the due date. The Company shall pursue monthly collections of outstanding balances of residential delinquent accounts. Any residential customer with both metered residential service and private outdoor lighting service may request to receive combined billing for the two services. When payments are mailed, the United States Post Office cancellation mark will be considered as the date of receipt. Failure to receive a bill will not be a waiver of any of these Rules and Regulations.

If a meter fails to register correctly the amount of electricity consumed in any period, the amount of the bill will be estimated, such estimate to be based either upon the results of a meter test or upon the consumption for preceding or subsequent billing periods, or both these methods.

Under Restructuring a customer may select one of two billing options: (1) Consolidated Electric Distribution Company Billing, and (2) Separate Electric Distribution Company/Electric Generation Supplier Billing. If the Customer does not make a selection, the customer will receive Consolidated EDC Billing.

When the Company is providing Consolidated EDC Billing, Default Service or Separate EDC Billing, and the Customer remits a partial payment to the Company, the payment will be applied as follows:

1. Deposits.
2. Balance due or the installment amount for a payment agreement for Fixed and Variable Distribution Service Charges.
3. Current Fixed and Variable Distribution Service Charges.
4. Balance due for prior charges for Energy, if Wellsboro is providing Default Service.
5. Current charges for Default Service.
6. Non-basic service charges.

16. RETURNED PAYMENT CHARGE

If a payment on a Customer's account is returned to the Company unpaid by the Customer's bank or another entity responsible for processing payment and cannot be reprocessed by the Company for payment, a charge equal to the sum of all associated charges, if any, and a minimum of \$20.00 will be added to the Customer's account.
